- 1 [Security analysis of the palm operating system and its weaknesses against malicious code threats](#)
[Kingpin Kingpin, Mudge Mudge](#)
 August 2001 **SSYM'01: Proceedings of the 10th conference on USENIX Security Symposium - Volume 10**,
 Volume 10
Publisher: USENIX Association
 Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)
Bibliometrics: Downloads (6 Weeks): n/a, Downloads (12 Months): n/a, Citation Count: 2

Portable devices, such as Personal Digital Assistants (PDAs), are particularly vulnerable to malicious code threats due to their widespread implementation and current lack of a security framework. Although well known in the security industry to be insecure, ...

- 2 [Security analysis of the palm operating system and its weaknesses against malicious code threats](#)
[Kingpin Kingpin, Mudge Mudge](#)
 August 2001 **SSYM'01: Proceedings of the 10th conference on USENIX Security Symposium - Volume 10**,
 Volume 10
Publisher: USENIX Association

- 3 [Address obfuscation: an efficient approach to combat a board range of memory error exploits](#)
[Sandeep Bhatkar, Daniel C. DuVarney, R. Sekar](#)
 August 2003 **SSYM'03: Proceedings of the 12th conference on USENIX Security Symposium - Volume 12**,
 Volume 12
Publisher: USENIX Association
 Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Bibliometrics: Downloads (6 Weeks): n/a, Downloads (12 Months): n/a, Citation Count: 13

Attacks which exploit memory programming errors (such as buffer overflows) are one of today's most serious security threats. These attacks require an attacker to have an in-depth understanding of the internal details of a victim program, including the ...

4 [Review and analysis of synthetic diversity for breaking monocultures](#)

James E. Just, Mark Cornwell

October 2004 **WORM '04:** Proceedings of the 2004 ACM workshop on Rapid malware

Publisher: ACM

Full text available: Pdf (356.14 KB)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Bibliometrics: Downloads (6 Weeks): 5, Downloads (12 Months): 38, Citation Count: 1

The increasing monoculture in operating systems and key applications and the enormous expense of N-version programming for custom applications mean that lack of diversity is a fundamental barrier to achieving survivability even for high value systems ...

Keywords: diversity, n-version programming, vulnerability

5 [Security: important issue in e-commerce](#)

Zahra Ahmadi-Brooghani

July 2007

ICCOM'07: Proceedings of the 11th Conference on 11th WSEAS International Conference on Communications - Volume 11, Volume 11

Publisher: World Scientific and Engineering Academy and Society (WSEAS)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Bibliometrics: Downloads (6 Weeks): n/a, Downloads (12 Months): n/a, Citation Count: 0

In the rapidly expanding field of E-Commerce, mobile agent is the emerging technology that addresses the requirement of intelligent filtering/processing of information. E-Commerce or electronic commerce is born along with the Internet. In this application, ...

Keywords: distributed environments, e-commerce, mobile agents, security

6 [Tamper-resistant whole program partitioning](#)

Tao Zhang, Santosh Pande, Antonio Valverde

July 2003

LCTES '03: Proceedings of the 2003 ACM SIGPLAN conference on Language, compiler, and tool for embedded systems

Publisher: ACM

Full text available: Pdf (444.16 KB)

Additional Information: [full citation](#), [abstract](#), [references](#), [cited by](#), [index terms](#)

Bibliometrics: Downloads (6 Weeks): 3, Downloads (12 Months): 34, Citation Count: 5

Due to limited available memory (of the order of Kilobytes) on embedded devices (such as smart cards), we undertake an approach of partitioning the whole program when it does not fit in the memory. The program partitions are downloaded from the server ...

Keywords: mobile code, program partitioning, ramper resistance, smart card
